

OFFICE OF STRATEGIC SERVICES

WASHINGTON 25, D. C.

29 September 1945

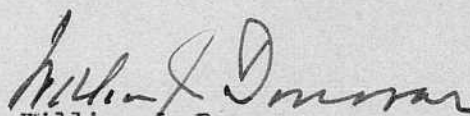

Dear Leslie:

You have had a long tour of duty with this organization, in New York, Washington and over-seas. You have put yourself into the discharge of your responsibilities with a good heart and a good head. You have rendered services of which you may be proud.

It is a source of disappointment to you, I know, that your arm injury "froze" you here under treatment, and kept you from getting into Norway, as you had hoped, while the Germans were still there. But you played an important part in the planning, - and in the training of some of those who did go.

I expect good things of you in the future, and I wish you all luck.

Sincerely yours,

William J. Donovan
Director.

Lt. Leslie Fossel,
Washington, D. C.
